

Bare Metal

Fileserver

Files

Samba

Description

Samba is an implementation of SMB protocol. It serves as a general purpose file server in my LAN

Note

This service is deployed on multiple machines

Bare Metal

Basic info

Basic info with official links

- Package: `samba`
- Official Wiki: [Official Samba Wiki](#)
- Arch Wiki: [Arch Wiki for Samba](#)

smb.conf

Warning

Change interface name in `interfaces` of `[global]` section
Run `ip a` to find your ethernet port name

Media Server

...

```
[global] workgroup = WORKGROUP min protocol = SMB2 client min protocol = SMB2
server string = Media SMB server role = standalone server log file = /usr/local/samba/var/
log.%m max log size = 50 dns proxy = no
