Docker   **Networking**

Traefik

Description

Traefik is an open-source Edge Router that makes publishing your services a fun and easy experience

> **Note**
>
> Traefik or reverse-proxy/proxy is a huge topic in itself. For best explaination on Engineering side, refer to Hussein Nasser
> Other guides I recommend are Techno Tim and IBRACORP

Docker

Basic info

> **Basic info with official links**
>
> Ingress Ports: `80` `443`
> Web-GUI Port: `8080`
> Image: DockerHub
